**YOU HAVE THE TASK....
WE BEND SOLUTIONS!**

A MEMBER OF THE ZECH-GRUPPE

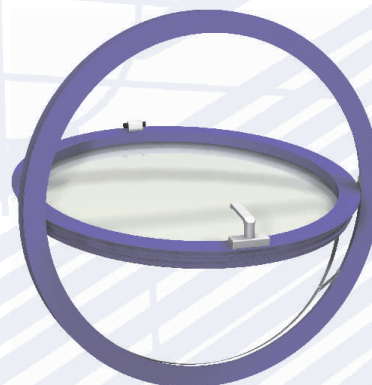

**Pivot-hung swinging
window**

In tilted position:
Large opening up to 300mm

RKS - 2000:
*More glass means more light.
Reduced face widths from
160mm to 90mm in comparison
to a circular hung swinging
window*

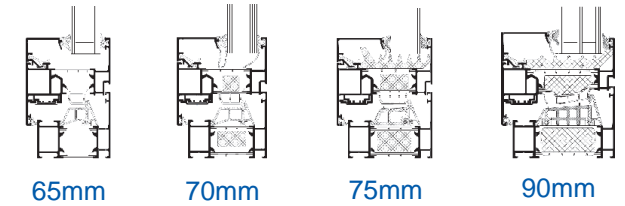

In swivel position:
*Push button release
from tilt to swing
position*

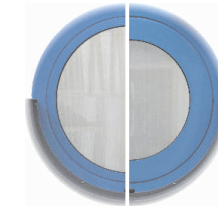

Cleaning position:
*Opening angle up
to 180° for easy
cleaning from inside*

- 30% reduced face widths
- More cost-effective than a standard circular hung swinging window.
- Surrounding middle seal for high tightness.
- Fully concealed mounting arrangement
- Especially designed for deep reveals

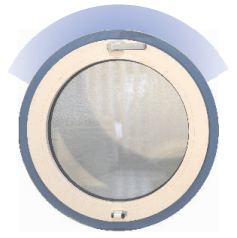

basic depth:

diameter min. - 450mm

30% less
face widths

selectable
handle position

Window sill inside / outside
